Osborne House

Osborne House, Queen Victoria's family home, is one of the most popular tourist attractions on the Isle of Wight. After first visiting Osborne, England's longest-reigning monarch wrote: 'It is impossible to imagine a prettier spot.' Ever since Queen Victoria's own princes and princesses played here, Osborne has been a special place of fun and freedom for children and families. Queen Victoria's beach and the Swiss Cottage are firm favourites with younger visitors. Enjoy the part shingle and part sand beach, with its gentle slope into the sea making it ideal for paddling and swimming. Created especially for the royal children, the Swiss Cottage is still the perfect place for family fun today. Hidden in the woods, you can see where the princes and princesses planted their gardens, explore the museum full of strange and fascinating objects, and jump around in the play area. Find out more about the nine royal children in the interactive exhibition and follow the garden adventure trail. www.english-heritage.org.uk
